## Academics

One of the most cherished experiences in school—doing a math problem on the board.

I told you so. That's the way we do things here, and we like it that way.

Wow! This is fun.

I just love to read.

Above: Really?  
What happened  
next?

# SENIORITIS

Senioritis has hit . . . again! All the symptoms are back- the sweaty palms, the sudden development of claustrophobia, the spaced out look, and the get-out-of-my-way cranky look. These seniors are extremely moody so beware. Study the following symptoms, and BEWARE!!!

The 1st sign of senioritis is the drowsiness/falling asleep in class syndrome. (in greater effect senior year)

Among other things sunglasses are used to protect the senior from the schools Monday morning rays.

Right: The look of awe and disbelief (zombie effect) come next.

There are just those days when you seem to go crazy again, and again, and again . . .

## Seniors Suffering From Extreme Senioritis . . .

. . . forget their locker combo.

. . . dress up really weird due to the fact that they mistake every day for Friday (Party)

. . . have spurtz of energy that results in a desire to play a sport.

. . . Start enjoying the cafeteria food

. . . revert to childhood ways, and start acting like mafia members.

## The Cure?

Unlike the measles, and the mumps, there is no way to physically kill this disease. It lives off of seniors. The poor seniors must suffer a prolonged agony until June. It is a long way and only the lucky ones survive. The less fortunate tend to go mute and just spare off into space. Senioritis is a very serious dilemma, so be on the lookout. Warning: It hits juniors at the end of junior year.

Left: . . . spontaneously jump up and down for no reason at all

### CONCERT ETIQUETTE

1. After the concertmaster is seated, the oboe player will play an "A," the note to which the orchestra will tune.
2. When the orchestra has finished tuning and all is quiet, the conductor will enter.
3. It is customary to greet the conductor and soloist with applause when they walk on stage.
4. Please do not talk during the concert, but pay close attention to the music.
5. You will know that a piece is finished when the conductor lowers his arms to his side. It is then appropriate to show your appreciation with applause.

*In music one must think with the heart and feel with the brain.*

# ART, MUSIC, DRAMA

Philosophy may teach us to bear with equanimity the misfortunes of our neighbors and science resolve the moral sense into a secretion of sugar; =but art is what makes the life of each citizen a sacrament and not a speculation, art is what makes the life of the whole race immortal.- Oscar Wilde

## Notes on notebooks

Did you ever notice that you can tell a person's personality by their notebook?

There are an infinite number of different styles you can have in a notebook. There is the huge (six-inch binder) type, commonly seen with thousands of assorted sundry papers sticking out in a confused array (known as the "Monster Notebook"). Then there is the manila folder notebook. This is generally for the lazy or weak armed student.

When you see someone with snags in their sweaters and marks on their arm, you know they are a spiral notebook enthusiast. Personally, I think the metal spiral should be declared a lethal weapon. Many spiral notebook fans go overboard in their enthusiasm and carry eight or ten of them at a time.

## DECA Store Opened

One of the newer and more enjoyable facilities instituted during the Class of 77's stay at AHS was the Distributive Education classes' store located in the cafeteria.

The Store was first built in 1974 in a corner of the cafeteria where it was promptly burnt to a crisp by vandals (the kind that give us wonderful teenagers a bad name).

But the DECA kids were not quitters. They held a fire sale in their classroom and soon produced another store. Students were able to purchase jackets, T-shirts, jewelry, and candy in addition to school supplies.

DECA also ran a coffee and doughnut shop before school which became very popular. Unfortunately, it became too popular with some students who seemed to prefer it to their first period class.

The program benefitted DECA by teaching students how to run a small retail business through actual experience. Every phase of training was mastered from window decoration to making change and keeping books.

The colors and designs of notebooks are also very revealing. There is dull black, vibrant red, pink polka-dot, striped, checked, or swirled. There are Charlies Brown notebooks, comic-book character covers, "Fonzie" and "Starsky and Hutch" notebooks. As a matter of fact, we can continue our lunchbox childhood throughout notebook covers.

So next time you see a friend of yours, look at their notebook, and see what it tells you about the person.

## Coed Gym Classes

Another farce has been instituted at Arlington High this year - Coed Gym - the original farce being gym itself. The principal purpose behind the installation of Coed Gym was to motivate the students, to instill the values of not skipping gym, and to teach physical education. The failure of all three of these objectives is staggering.

Why the Creatures from the Pit would feel their female students would be inculcated by having male students in their classes is beyond all comprehension. The gym class has remained the same, only the participants have changed sex. Personally, it has never enthused me to run around a cone and back while trying to dodge balls thrown at my head. I'm still not very motivated doing this same activity with boys in

my class

Try as they might gym teachers still have no valid reason for students to take gym. Gym is boring. The most exercise you receive in gym is while you change into your gym clothes. The only reason students attend gym is that they will get bagged if they don't go to gym. The sole power of the gym teacher is the power to bag. Be warned! For as surely as the bells do ring, you will be bagged if you skip gym.

A common ception is that physical education should promote physical fitness, not physical fits. In gym class we should be learning how to enjoy a few sports, not how to best maime our opponents, or how to avoid breaking into a sweat. Gym, coed or otherwise, should not be an arduous task, yet too often for too many people it is.

# How To Open A Door

A fear is prevalent at A.H.S. - a fear of doors. This fear is manifested by the fact that no one will willingly open a door. Such fear has forced most students to search in vain for open doors. Often times students will try to squeeze through an open half of a swinging door, even if other people are going through it in the opposite direction. There is no need for such irrational fears.

To overcome our fear of doors, we

must first be able to recognize the enemy. A door is easily distinguishable from a wall, because it is easier to pass through a door than a wall; there is no such thing as a wall knob. A door, however, is harder to pass through than a window, but going through a window is more painful, especially a third floor window. Doors also have another identifiable characteristic - handles.

The only doors discussed will be

swinging doors. There are two sides to every swinging door - a push side and a pull side. The pull side usually has attached to it some type of handle; the push side doesn't have a handle. It is very important to differentiate between the push and the pull sides of doors. Not only is it embarrassing to apply a push force to a pull door, it is quite lethal as well. The consequences aren't quite so severe if one attempts to pull a push door.

There are three principal categories of swing doors - the open swinging door, the closed swinging door, the half-open or half-closed swinging door, depending on the optimism or pessimism. The test for categorizing a door is to try to run through the door. If you are rendered unconscious by your attempts the door is closed. If you weren't harmed as you ran through the door, the door is open. If half of your body is entwined around a door while the other half is free, that door is partially open.

Many techniques are used to open a door. One must always remember, however, that it is useless and totally redundant to try to open an open door. Methods of opening closed doors include: The Kick, The Hip-Check, The Head, The Nureyev, and, most commonly, The Hand. When using these modes of door opening, it is essential to recall the difference between a push and a pull door. If one becomes confused and uses say The Kick method on a pull door, pain results.

**Holly Alexandra Saparoff**  
1973-1989

Dear Holly,  
I don't understand.  
Why so suddenly? so quietly?  
You left without a word to anyone.  
Didn't you realize how much we'd miss you  
I miss you. We all miss you.  
You had so much. You gave us so much.  
Your family and friends adored you, we still do.  
Only now you're not here, so I can't tell you.  
I never got the chance to say, "You're a great friend."  
I never got the chance to say, "Thanks for everything."  
I never got the chance to say goodbye.  
That's what hurts the most.  
I never got to say goodbye to you.  
And I miss you (more than anyone realizes)  
Goodbye Holly! We love you.

# YEAR IN REVIEW

"There's no excuse  
for what happened in  
the locker room."

*Victor Kiam*

I am appalled by what reportedly happened on September 17th to Lisa Olson in the New England Patriots' locker room. Male chauvinism, gross behavior of any sort, I detest. Rape, physical, mental, threatened, hinted at or joked about, is something I will not stand for.

The NFL is conducting a full investigation of this incident and I support that. Please remember the New England Patriots' team and organization are comprised of many outstanding individuals.

"I apologize for  
what I said."

*Victor Kiam*

## Active Duty

Today . . . at 2:30 . . . . . is what we hear any day of the week when there is any club meeting. When one hears the announcements one feels too lazy to go, but then one says, Oh why not! Clubs are fun, educational, and exciting. They range from the more serious clubs like SADD, to the more fun-oriented clubs such as the ski club. No matter what the club, one knows that there are caring people who do want to have fun, learn, and help other people, and that is the most important part of the activity.

**STUDENT ADVISORY COUNCIL**-1st: Mike Spencer (SR), Laura Hanley (JR), Caileen Fitzgerald (SO), Greg Kalivas (SR), Missing: Bobby Cronin (SR), Emily Allen (JR), Molly McMahon (FR)

**MEDIA CLUB**-1st: Dave Allen, Megan Mahoney, Ryan Skeeahan, Steve Katsos, Emina Zanganjori, Debi Clement, 2nd: Michael Radochia, Krissie Brown, Benny Hung, Advisor Mrs. Slade, Fadi Massabni, John Bulens

**THE GLEE CLUB**-Due to a chemistry experiment that went awry, the above students' and teacher's face were transfixed into a permanent smile, and therefore they made this club. Being ostracized by others for being constantly happy, they gain comfort from each other, and work to stop prejudice against smiley faces.

**LITERARY MAGAZINE**-1ST: Brenda Costa, Cheryl Najarian, Maura Fennelly, Megan Geinoy, 2nd: Sharon Fox, Julie Narsasian, Rebecca Weekly, Heather Black, Ted Kottler, 3rd: Alyssa Falwell, Dave Conneely, Dorothea Pappas, Kirsten Greenidge, Karen Braga, Jamie Doyle, Sheila Dwyer, Ellen McSweeney, Jen Healy

**FOURTH ESTATE**-1st Jean Finochetti, Helen Litsas, Teresa Rodriguez, Nicole Lattarulo, Megan Geinoy, 2nd: Yasaman Ghavami, Anthony Fine, Marco Rossi, David Stepanis, David Conneely, Sheila Dwyer, Ellen McSweeney, Georgia Litsas, Jen Healy 3rd: Michael Radochia, Charles Sheehan, Steve Katsos, Ted Kotler

**STUDIOPHILIA CLUB**: New activity formed this year by a couple of students who suffered from arthritis, backaches, and strained eyes. New members always welcome.

They may seem like normal individuals but actually **THEY'RE MANIC FRISBEE THROWERS!**

**NATIONAL HONOR SOCIETY-** This group has been recognized for its academic excellence, service, and leadership. Among the many projects that this "club" has been involved in are the tutorial program, the turkey walk (Tim McCutcheon took time out to walk around in a turkey suit), and baking cakes for the homeless. The members are listed from left to right. 1st: P. Taoultides, S. Fox, T. Wolk, H. Litsas, A. Hassler, J. Powell, T. Rodriguez, E. Zaganjori, M. Fennely, T. McCutcheon 2nd: T. Boujoulian, C. Nolan, Advisor Mrs. Graham, Yasaman Ghavami

# CLUBS

**GLASS CLUB -** If you enjoy pressing your nose up against a glass & taking pictures, join this club of obsessives. It can be truly uplifting.

**TEEN DEPRESSION-** This year the teen depression team tried something a little different- a toilet paper roll. They asked the kids to take as many tissues as they needed to blow their nose and with the amount that the kids took, the kids had to equal the # of sheets with a # of things that made them depressed. The caring members are listed from left to right. 1st: M. Stepanis, C. Najarian, C. Patterson, J. Anglin, C. Aftuck, L. Tannenbaum, E. Zaganjori, A. Hassler, 2nd: J. Finochetti, D. Dredge, H. At a recent protest one student exclaimed "It's not my fault I'm short!"
